

IEOR

INDUSTRIAL ENGINEERING
& OPERATIONS RESEARCH

Berkeley
UNIVERSITY OF CALIFORNIA

A PhD in IEOR Can Change Your Life

**Stretch the
boundaries**
of your intellect
and curiosity

**Collaborate with
leading faculty**
to innovate across
academic and
industry topics

**Discover cutting
edge solutions**
to open problems

#1 Public University
#3 College of Engineering
#4 U.S. IEOR Department

Our PhD program will prepare you with the latest theory, computational tools, and research methods for a career of discovery in academia or industry. You will learn how to innovate in a wide range of domains such as artificial intelligence, high-tech, healthcare, energy, finance, consulting, data science, management, robotics, logistics, human factors, and management.

“ We’re developing new research projects in Machine Learning and Data Science, combining results from stochastics and optimization to provide a growing range of products and services. ”
- Professor Ken Goldberg, Chair

**Applications due
Dec. 7th 2018**
