Grading:

0) Mathematics requires to do things right. This is particularly important in upper division mathematics. So the students are expected to complete homeworks and midterm exams correctly, i.e., they will be given second and third chances to complete homeworks and midterm exams. The grading will be done based on the factor how many times a student repeated to complete the answer and how much help the individual needed to complete. There will be no partial credit on bad answer below 80%. The grading on both homework and midterm exams will go like the following:

- Completion on the first trial: 100%\(\times\) (The number of attempted problems/The total number of homework).
- Completion on the second trial without help: 70%\(\times\) (The number of attempted problems/The total number of homework).
- Completion on the third trial without help: 50%\(\times\) (The number of attempted problems/The total number of homework)
- Completion on the third trial with help: 50%\(\times\) (Degree of Help)\(\times\) (The number of attempted problems/The total number of homework)
- Completion on the fourth trial without help: 35%\(\times\) (The number of attempted problems/The total number of homework)
- Completion on the fourth trial with help: 35%\(\times\) (Degree of Help)\(\times\) (The number of attempted problems/The total number of homework)

............

You are expected to learn and to complete your work.

1) Home work will be counted 10% of the total grade.
2) Two midterm exams will be given: first on the beginning of the fourth week and the second will be on either on the end of the sixth week or the beginning of the seventh week; each counts 15% of the total grade.
3) The final exam will count 60% of the total grade.

Office Hour at MS 7911:

Monday: 1 PM - 2 PM, Wednesday: 2 PM - 3 PM.

Your office hour visits are encouraged and will be counted positively toward your grade in an unspecified way. You are not restricted on your office visit to the office hour. You may visit me any other occasion whenever it is suitable for the both of us.

Homework and Midterm Results:

You are expected to pick up graded homework and midterm exams as soon as the grading is complete. The graded homework or the graded mid term exams left at either office, Takesaki’s office MS7911 or the TA’s office, will be viewed negatively toward your credit.

Phone Number:
